

Colchester Community League

23219 Township Road 520

Sherwood Park, Alberta, T8B 1G1

December 23, 2016

Colchester community league is a community based organization established in 1971 to foster the sense of community in rural Strathcona County. The organization was started to bring families together and instill a sense of community that is now not as common in urban environments. The community hall is now used for family friendly events such as the spring family fun day, movie afternoons and family dances. To support these activities the hall is rented to weddings, family reunions and groups who want to gather in a rural setting.

The community hall underwent a basement renovation in 2012 and kitchen appliances were replaced at that time but there was not sufficient money in the renovation budget to include the main floor cooler. The main floor bar area has a sliding glass door cooler that was purchased used in the mid-1970's and while it is still operating, it is so noisy that conversations cannot take place anywhere near it while it is running. It is turned on only while an event is on at the hall and as a result of being turned on and off without ensuring the doors are left open for ventilation the shelves are rusty and water runs across the hall floor every time it warms up. We are quite concerned that the intermittent operation may be fostering mold growth and are looking for a replacement cooler that can be left on between events without incurring a large utility penalty.

We have looked into a number of sliding door coolers and without going commercial we are looking at \$3000-4000 for a reasonably large unit that will fit in place of the old unit. We have attached pricing for two units that would meet the need.

The group is looking for funding for this piece of equipment and would appreciate Strathcona County considering a contribution of \$3000 towards the cooler.

We appreciated giving this project your consideration and look forward to a favorable response. If additional information is needed I can be reached at (780) 916-2231 or via email at ackerman@myac-eng.com.

Sincerely,

Mark Ackerman, Treasurer, Colchester Community League

The estimated delivery time will be approximately 10 - 15 business days from the time of order.

Product Details

The Maxx Cold MXM2-48RS refrigerated merchandiser allows you to store and display any type of product at the perfect temperature. Constructed from high quality materials, this merchandiser is ideal for displaying a wide variety of products in home for an attractive presentation, or in stores to grow sales. A digital external controller allows you to precisely control the temperature, while extra bright interior fluorescent lights brilliantly illuminates the product inside. Its commercial NSF approval evidences its durability and quality, while its Energy Star® rating ensures one of the lowest operating costs available.

Features:

- Energy Star® approved equals low running cost
- Commercial NSF approval
- Beautifully display all types of products
- Sliding doors
- Lighted top displaying signage
- Double paned glass eliminates condensation
- 5 interior shelves for ample storage
- Bright LED lights to illuminate interior
- White powder coated cold rolled steel exterior

Specification:

- Dimensions (W x D x H): 137.2 cm x 81 cm x 201.9 cm; (54 in. x 31.9 in. x 79.5 in.)
- Weight: 203 kg (448 lb)

Warranty:

3 years

Model: MXM2-48RS

Product Details

This True® refrigerator has two self-closing, sliding glass doors and eight shelves, making it ideal for showcasing a wide variety of merchandise.

Features:

- Self-closing doors
- Double pane thermal-insulated glass door assembly
- Durable non-peel or chip white laminated exterior
- 8 adjustable, PVC coated wire shelves
- Patented integrated door light (IDL) system for brighter, shadow-free illumination
- Maintains temperature between 0.5°C - 3.3°C (33°F - 38°F)
- Environmentally friendly 134A refrigerant
- Ecomate® high-density polyurethane insulation: CFC (chlorofluorocarbon) free, zero ozone depletion (ODP), and zero global warming potential (GWP)
- Bottom mounted condensing unit
- Easily accessible condenser coil for cleaning
- Listed under NSF-7 for the storage and/or display of packaged or bottled product
- 115 V 1-phase, 6.8 A

Specifications:

- Dimensions (W x D x H):
- 121.9 cm x 75.2 cm x 200.7 cm; (48 in. x 29.6 in. x 79 in.)
- Weight: 198 kg (438 lb.)

Warranty:

- 3 years, parts and labour
- 5 years, compressor
- Returns accepted within 90 days from date of purchase
