Summary

The subject property is located within the Agriculture Small Holdings Policy Area of the MDP. In accordance with MDP policy, a Conceptual Scheme must be prepared prior to rezoning and subdivision. The purpose of a Conceptual Scheme is to provide a framework for the

subsequent rezoning, subdivision, and/or development of a specific area of land based on conservation design principles.

The Conceptual Scheme will establish a plan of future subdivision that applies to the existing titled areas within the plan area and ensures that a proposed rezoning and/or subdivision does not prohibit the ability of remnant or adjacent lots to be further subdivided in the future. The proposed Conceptual Scheme allows for the consideration of rezoning and subdivision of the subject lands into a total of four rural-residential lots, as well as municipal and environmental reserve lots and environmental reserve easements.

A public information meeting was held on May 11, 2017, for affected and adjacent landowners. There was one letter of objection to the Conceptual Scheme received.
