Sherwood Park Archery Club presents the...

Alberta summer classic

June 30, 2017 – July 3, 2017, Sherwood Park, Alberta, Canada

Strathcona County Council Office of the Elected Officials, 2001 Sherwood Drive, Sherwood Park, AB T8A 3W7 June 19, 2017

Dear Mayor Carr and Council Members,

Established in 1979, the Sherwood Park Archery Club is Alberta's oldest and longest running archery club with a long and successful history of hosting major archery tournaments. We are looking forward to welcoming Archers from across Canada and abroad to Sherwood Park over the July long weekend for the inaugural "Alberta Summer Classic" located on the premiere soccer fields at Millennium Place. The current list of registered archers already includes members of the Canadian World Junior Championship Team, members of Canada's High Performance squad for recurve, a former World and Olympic Para Champion and a many time Para and World Championship team member! We also have an archer travelling all the way from Georgia in Eastern Europe and another from Washington.

Please accept this letter and application for up to \$10,000 in Council Priority Funds. We are excited to send you this request for financial support for the Alberta Summer Classic, Canada's only "Open International" shoot. Archer's attending this shoot will see many similarities to other world-ranking events registered by World Archery including electronic scoring and live streaming television coverage. Although the Alberta Summer Classic is not a World-Ranking Event (WRE) in 2017, it is our intention to build this new, annual Canadian event into a World Archery WRE by 2019. This would attract as many as 400 to 500 archers from around the world to Sherwood Park each year and generate an annual economic impact of \$700,000 or more.

Council Priority Funds will be used to help us offset the cost of purchasing many of the materials and supplies required to help us deliver an event on par with the quality expected by World Archery for a World Ranking Event. In order to reach our objective of securing WRE status with World Archery, we must demonstrate our ability to plan and deliver several events that meet all of their requirements for hosting a WRE event. Profits from this inaugural event will be reinvested to help us continue to grow and expand this event into a WRE event by 2019. We will also use some of the profits to help us achieve our vision for creating an archery centre of excellence at our current outdoor range location. This centre of excellence will support the development of recreational and competitive archers, judges, and coaches of all ages and abilities and help us supporting significant growth and development in archery in the Capital Region as well as the province and Canada too.

Sincerely,

Sherwood Park Archery Club presents the...
