Summary

In 2014 the Traffic Safety Strategic Plan (TSSP) 2020 replaced the former TSSP 2008 as Strathcona County's guiding document for traffic safety decision-making. The plan is based on a "safer system" approach to traffic safety and sets out a vision, mission, and targets for traffic safety in the County. The Plan outlines 13 strategies to meet its targets. This update provides the current state of traffic safety in Strathcona County and progress towards strategies outlined in the TSSP 2020, and identifies priority projects for 2018.
