Summary
Council's strategic plan is Strathcona County's principal guiding document for governance, community development, infrastructure and program and service delivery. The plan identifies - for the community and others - the County's long-term planning. It serves as the foundation on which Strathcona County's corporate business plan, department business plans, master plans and budgets are developed and approved.

Council's annual review of the strategic plan has resulted in refined strategic goals and results to more clearly articulate where administration should focus in order to achieve our vision. These improvements to the plan are reflected in the newly designed strategic plan.
