

Census Data Collection Modernization

1. Host a regional census debriefing to gather the following information:
 - Method of collection
 - Use of technology
 - Recruitment & staffing
 - Methodologies for unresponsive households
 - Survey questions
 - Post-census analysis & reporting
2. Host a municipal census workshop open to all County departments who use census data to have a understanding how departments are using census data.
3. Participate in the municipal census manual review with Alberta Municipal Affairs.
4. Explore options for a paperless census that will include real time updates and the potential to use existing software in the County.
5. Explore best practices to encourage residents to participate.
6. Understanding barriers that prevent us from achieving 100% on-line completion rate.
7. Conduct a review of our communications plan and research best practices of engagement to encourage residents to participate on-line.
