

**Status of Report – South Cooking Lake Residential Water Fill Station Public Engagement Update****Report Purpose**

To inform Council of the ongoing public engagement process for the South Cooking Lake Residential Water Fill Station.

**Recommendation**

THAT the South Cooking Lake Residential Water Fill Station Public Engagement be brought back to Council on the revised date of end of Q3 2019.

Original Due Date: end of Q2 2019

Revised Due Date: end of Q3 2019

**Council and Committee History**

July 17, 2018	THAT by the end of the second quarter in 2019, an engagement process to determine community support for a residential scale truck fill to be situated in the hamlet of South Cooking Lake be approved; and that funding for the engagement process up to a maximum of \$30,000 from the RU1 Utility Rate Stabilization and Contingency Reserve, be approved.

**Rationale**

Administration has commissioned a third-party public engagement specialist to facilitate an engagement process with residents regarding a residential water fill station within the Hamlet of South Cooking Lake. The engagement process is underway with the creation of a Citizen Input Panel to recommend effective methods to engage with people in the area. Results of the public engagement will be presented to Council upon completion of this process.
