Report

The purpose of Bylaw 23-2019 is to amend the Country Residential ACP boundary to remove approximately 106 hectares (262 acres) of land in the NE 2-53-22-W4 and part of SE 2-53-22-W4.

The subject property is currently designated within the Low Density area of the ACP. The subject property is proposed to be removed from the ACP boundary to facilitate an expansion to the Hamlet of Ardrossan boundary identified within the Municipal Development Plan (MDP) as proposed by concurrent Bylaw 22-2019, as well as an Ardrossan East Area Structure Plan (ASP) as proposed by concurrent Bylaw 24-2019.

The intent of these concurrently proposed bylaws is to enable consideration for development of a complete community in the context of a rural hamlet. Should Bylaws 22-2019, 23-2019 and 24-2019 be adopted, Land Use Bylaw amendments to add zoning districts specific to the expansion area would be required to be prepared for Council's consideration and subsequent rezoning would have to occur prior to subdivision and development approvals.

Public open houses were held on August 25, 2015, December 7, 2017 and May 23, 2019 for the concurrently proposed amendments to the MDP, ACP and ASP.

The proposed ACP amendment was circulated to internal departments and external agencies for review. No objections were received.
