**Report**

The organization has been reporting corporate business plan progress to Priorities Committee in Q2 and Q4 since 2016.

Prior to the 2019-2022 Corporate Business Plan, the quarterly reports only included significant achievements. As a point of continuous improvement and accountability, a new reporting structure was introduced to the organization in Q1 2019. This new reporting structure requires updates on the progress of the Corporate Business Plan to Priorities Committee for the second and fourth quarter of each year. This reporting outlines progress on all active initiatives on three criteria: time, scope and budget.

The second quarter dashboard for progress reporting on all active corporate initiatives under the 2019-2022 Corporate Business Plan has been prepared for presentation to Priorities Committee.
