Brief description of request

St. Isidore Catholic Learning Centre is an Alternative Learning Centre for students in the County of Strathcona. We currently exist in Elk Island Catholic School's "Central Learning Services" building at 310 Broadview Road. We are home to a total of 1329 students who are comprised of: Home Education, Outreach, Online, and Adult Education. These students use our Learning Centre to come to connect with peers, their teachers, complete their education and become contributing members of society! Most of our students come to us for a safe place to be and to have a fresh change of scenery. We have students who take the County Transit and walk across to us from Bethel Station, everyday. The challenge that we are facing is we do not have sufficient outdoor space for students (and teachers) to connect, build community and enjoy each other. We are looking to build a type of "Outdoor Classroom" or gathering space for our St. Isidore school community, and the Strathcona community at large, to enjoy.

Currently, our site does not have any place for our students to go. We have been given permission by our School District to use the land located East of our building for our students, unfortunately, we do not have any funds to create much of a space for them. We were hoping to obtain funds from a grant such as this to create an "Outdoor Classroom" where students can go outside, shoot some hoops, tend to a garden, enjoy a good book, share in friendship, take their work and get some fresh air and exercise.

Our Vision: To create a patio area where we can put up a gazebo of sorts and picnic tables to gather and connect, gardening containers to grow and learn about horticulture, a basketball hoop for physical activity, garbage cans so that we can be good stewards of the Earth. Having a space like this would enhance this area currently under development and would provide a place for our kids to go and do something outside as there is not much for them to do over in this part of Sherwood Park. Not only would it be a wonderful, and much needed space for our students, but it can also be used by the community at large. Everyone can benefit from a space like this :)

RE: Council Priority Funds

To whom it may concern,

I am writing you on behalf of the staff and students of St. Isidore Catholic Learning Centre in Sherwood Park. St. Isidore Catholic Learning Centre (SILC) is an Alternative Learning Centre for students in the County of Strathcona. We currently exist in Elk Island Catholic School's "Central Learning Services" building at 310 Broadview Road. We are home to a total of 1329 students who are comprised of: *Home Education, Outreach, Online, and Adult Education*. These students use our Learning Centre to come to connect with peers, their teachers, complete their education and become contributing members of society! Most of our students come to us for a safe place to be and to have a fresh change of scenery. We have students who take the County Transit and walk across to us from Bethel Station, every day. The challenge that we are facing is we do not have sufficient outdoor space for students (and teachers) to connect, build community and enjoy each other. We are looking to build a type of "Outdoor Classroom" or gathering space for our St. Isidore school community, and the Strathcona community at large, to enjoy.

Currently, our site does not have any place for our students to go. We have been given permission by our School District to use the land located East of our building for our students, unfortunately, we do not have *any* funds to create much of a space for them. We were hoping to obtain funds from a grant such as this to create an "Outdoor Classroom" where students can go outside, shoot some hoops, tend to a garden, enjoy a good book, share in friendship, take their work outside and to get some fresh air and exercise.

Our Vision: To create a patio area where we can put up a gazebo of sorts and picnic tables to gather and connect, gardening containers to grow and learn about horticulture, a basketball hoop for physical activity, and garbage cans so that we can be good stewards of the Earth. Having a space like this would enhance this area currently under development and would provide a place for our kids to go and do.

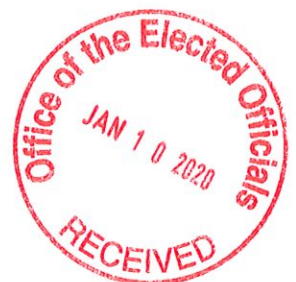

something outside as there is not much for them to do over in this part of Sherwood Park. Not only would it be a wonderful, and much needed space for our students, but it can also be used by the community at large. Everyone can benefit from a space like this :)

We would welcome a visit from the County to see our vision and we would be happy to show you around our great school. If we were the recipients of Council Priority Funds, I can guarantee they would be so appreciated and put to marvelous use! The students and staff of St. Isidore would be grateful! If you do require further information, please do not hesitate to get in touch with me – I'd be happy to chat with you!

Sincerely,

A handwritten signature in black ink, appearing to read 'Tracy Melnyk', with a long horizontal flourish extending to the right.
