
COVID-19 Status Update and Proposed Recovery Plan**Report Purpose**

To provide a status update on the COVID-19 incident and propose a relaunch and recovery plan for Strathcona County.

Recommendation

N/A

Our Prioritized Strategic Goals

Goal 1 - Build strong communities to support the diverse needs of residents

Goal 6 - Provide facilities and services that are available and accessible to residents

Governance Requirement

Report

The Strathcona County Emergency Management Agency (SCEMA), following the direction of the lead public health agency Alberta Health Services (AHS), will provide an update on the efforts of the Emergency Operations Centre (EOC) and Emergency Social Services (ESS) to date. More information and resources can be found on the [Alberta Health Services](#) and [Strathcona County](#) websites.

On April 30 the Alberta Government released their Relaunch Strategy. This report is intended to detail initial thinking regarding Strathcona County's response to the Provincial strategy. Although many details need to be confirmed, SCEMA is proposing a staged approach that mirrors the Province's strategy. It is important that our response is consistent with provincial direction, is operationally feasible and ensures the safety of our residents and staff.
