Our Prioritized Strategic Goals

Goal 1 - Build strong communities to support the diverse needs of residents

Goal 6 - Provide facilities and services that are available and accessible to residents

Report

On February 12, 2019 the Priorities Committee provided administration direction that an analysis be conducted on the County-owned lands located at 3rd Avenue and Range Road 222 to determine the possibility of creating a parcel for commercial development. This review took into consideration, parcel size, subdivision, zoning, utilities, access, impact on surrounding amenities, and involved discussions with the development industry to gain an understanding of their requirements to ensure commercial viability.

On April 9, 2019 Council was informed that the analysis was concluded and found that a suitable parcel size, servicing and access options are available to support a proposed commercial development at this location. In addition, the proposed plan will have no impact on the existing park development within the Ardrossan Recreation Centre lands. To enable consideration of commercial development at this location Council was informed that a number of planning applications would be required.

These include:

- an amendment to the Ardrossan ASP
- rezoning to a commercial zoning district
- subdivision to create a separate parcel

Following the April 9, 2019 update, Council approved the motion:

THAT administration prepare an ASP amendment, as well as rezoning, and subdivision applications to enable the opportunity for the disposition or sale of a portion of Plan 1107KS, Parcel B and Plan 2377NY, Block C, as set out in Enclosure 3 to the April 9, 2019 Ardrossan Commercial Update report.

As part of administration proceeding with the April 9, 2019 motion, a Public Engagement Plan was prepared in accordance with the County's Statutory Plan Procedure and a public meeting was held on June 6, 2019. The purpose of the public meeting was to inform and gather feedback from the public regarding the proposed amendment to the Ardrossan ASP and discuss the potential zoning district. The meeting was held at the Ardrossan Hall within the Ardrossan Recreation Centre. Advertisements for the meeting were also placed in the May 21, 2019 and May 28, 2019 issues of the Sherwood Park News.

Forty-one members of the public formally signed into the June 6, 2019, public meeting. Administration provided a presentation with an overview of the uses that could be considered as part of the potential land use district: C1 – Community Commercial Zoning District. Following the presentation, members of the public asked questions and provided comments on the proposal.

A total of 26 written submissions were submitted as a result of the public meeting. Many of these submissions included comment on the types of uses most desired by the respondents. Overall comments predominantly included a desire for food-oriented services such as a restaurant with a patio or lounge, grocery store, and convenience store. Gas station was a use that had split reaction of support and non-support within the comment sheets that specifically identified that use. Enclosure 6 includes a compilation of all written comments received.

Utilizing the C1 – Community Commercial Zoning District allows for consideration of uses at this location that are consistent with the public input provided.

Furthermore, the following regulation is proposed to be added to the C1 – Community Commercial Zoning District as section 7.11.7.d) shown in Enclosure 5:

In addition to the regulations listed above, permitted and discretionary uses on the commercial site located at the southeast corner of the intersection of Range Road 222 and Third Avenue, Ardrossan are subject to the policy direction contained within the ASP.

This regulation provides a direct connection between the policy of the Ardrossan ASP and the Land Use Bylaw, which results in ensuring the ASP's policy direction is achieved. Specifically, the regulation implements the intent that the subject commercial area is designed and oriented to have an interactive relationship with the hamlet by implementing strategies such as, but not limited to, pedestrian connections, double fronting commercial units and having patios face open space areas.

Council held a public hearing for Bylaw 32-2019 on October 29, 2019.

Should concurrently proposed Ardrossan ASP amendment Bylaw 31-2019 be adopted and Bylaw 32-2019 be given two readings, administration will proceed with the subdivision process to create a titled parcel for the subject area.
