# Working Group

- The following departments are involved in the working group:
  - Intergovernmental Affairs (lead)
  - Economic Development and Tourism
  - Recreation, Parks and Culture
  - Planning and Development Services
  - Information Technology Services

# Working Group

The working group discussed opportunities based on communication from Vũng Tàu City initially looking at the following areas:

## 1. Economic development

- Vũng Tàu is interested in bolstering their economic development in the areas of tourism, oil and gas service and engineering, and market development.

## 2. Designated as a Smart City

- Vũng Tàu is to implement smart city technology and are planning to examine options to better understand the data they are going to collect, such as understanding traffic and wastewater management.

### 3. Masterplan

- Vũng Tàu's masterplan has been approved and they are willing to share. They would like a broad range of support in their tourism development, engaging with their petrochemical development and infrastructure plan.

### 4. Urbanization

- Vũng Tàu is seeing a significant rise in population due to the movement of people from rural to urban areas. The recognition that there is a skill gap between the rural population and the needs of urban positions.
