Options considered included:

1. Purchasing the portion of residential area abutting the school site (equalling approximately .89 ha).
2. Leaving the site as proposed on April 27, 2021, with the commitment to continue to work with the school boards to optimise the location of the school buildings and separate drop off/pick up.
3. Reduce or remove proposed public pocket parks and/or walkways to allocate the majority of reserve dedication to the school site.

On May 4, 2021, Council approved a motion that administration return to Council on May 18, 2021 in response to the referral motion made on April 27, 2021, with the same bylaws that were presented at the Public Hearing.
