23-2021	Information	FRANK Rod	COVID-19 Costs Within County Facilities	Please provide information on whether the increased costs related to COVID protocols for facilities and loss of revenue associated with a decrease in facilities bookings have been absorbed by government grants.	Facility Services		The additional COVID expenses and lost revenues have been absorbed into Facility Services' (FAC) operating expenses for 2020. Financial Services fully applied available government grants to cover the impacts of COVID at the corporate level in 2020 and not directly into FAC. This was primarily the \$11.1 million of MOST grant funds, which was less than the County's lost revenues and additional costs as a result of COVID. For 2021, FAC's operating budget was increased to capture the ongoing COVID impacts without anticipating any additional grant funding, and no significant grants have been received corporately.	2021-07-13	2021-07-27	2021-07-26	Complete
