Dear Councilor Lawrence,

On behalf of the Antler Lake Uncas Community League (the ALUCL), I wish to apply for Council Priority Funds in the amount of \$1752.95 to build new community boards in the Hamlet of Antler Lake.

As you may know, there currently exists a community board in front of the Antler Lake Uncas Community Hall that is quite worn down. There was also once a community board at the south entrance to Antler Lake but was destroyed by a vehicle last year and has not been replaced.

As our membership and event attendance has grown, our organization has sought out more ways to communicate with our residents, especially those that may not have access to computers and internet. These boards would also be used by residents to advertise local businesses, job opportunities (for youth and adults), and anything else that is local to our community.

To that end, I am applying for funding to purchase the materials to build five community boards, one at each mailbox in Antler Lake, and one at the community hall. They will be built by residents of the community and the more prominent boards will also contain a cupboard in which residents can take and leave books to share (mini libraries).

It is our intention that these community boards will aid in our mission to foster community growth and togetherness.

Thank you for your time in reviewing this request.

Sincerely,

Leah Hamonic
