

Cooking Lake Airport

Airport Update

September 13, 2022

**Priorities
Committee**

**Jim Johannsson
Lawrence Lau**

Construction boom

- All bare lots sold
- 7 new hangars built in 2022
- 4 hangar teardowns and renovations
- 2 more in design phase

Challenges

- Restore international flights
- Transport Canada obstacle clearance limits
- Frequency change
- Fuel price spike

Historic Milestones

- 90th anniversary of first recorded medevac in Alberta
- 85th anniversary of inaugural airmail service to Yukon
- 80th anniversary of US Army AirForce taking over the airport to construct Alaska Highway and Canol Pipeline

Cooking Lake Aviation

- Sustainability
- iATPL Program
- Fleet renewal
- New Simulator
- Open House

Sustainability

- iATPL allows students to complete 25% fewer flight hours (150 vs 200 hrs) and students write their ATPL exams early
- New Diamond Aircraft fleet reduces fuel burn by 40%
- Canada manufacturer
- Canadian parts & shipping

Strategic Investments

- New \$400,000 USD ALSIM ALX built and shipped
- Fleet lands for Q1 and Q2 of 2023
- Licensing agreement with Solomon brings College Diploma to CEZ3 Fall 2023
- Next step: New Hangar + Campus

Training 50+ students annually, pushing for 100+ next year
