Please provide details of the property tax relief being sought, the year it is being sought for, and what the amount is. Further details may be attached to this form. Any documents you wish to rely on, or to have Council consider, must be included as part of this request form.

 I was doing a charity run from Sherwood Park AB to Victoria BC (Invisible Injury awareness run) It is an awareness run for brain injury and workplace illness or death. I believed my taxes were built into my mortgage. When I returned home from the 1744kms run and went back to work to pay bills. I started opening mail and found all the property tax notices. I'm just looking to see if you can graciously remove the interest from the account and pay the amount of the original tax notice. The tax year is for the most recent 2024. The property tax amount is \$4961.57, the current total stands at \$54.65. I am available to pay the full amount of the 2024 property tax notice (\$4961.57) immediately. While the charity event has ended and the webpage no longer exists you can see and review the progress I made through my Facebook account "Travis awareness run" I was also in contact with Brittney McClinton from the Sherwood Park county office, she would be able to confirm my run. I apologize and I assure you the error on my behalf was an honest mistake I made when I believed the taxes we're built into my mortgage and also due to not being able to cheque the mail during my 70 day long run for charity.

Collection and use of personal information

Property Tax Relief – Request for Hearing

(Page 2 of 2)

Thank you graciously for your time reviewing this, I have to renew my mortgage this November 1, 2024 and I will ensure the property taxes are built into the mortgage this time. _____

I certify that the information I have provided in this Property Tax Relief - Request for Hearing form is correct to the best of my knowledge, and that I am the property owner of the property described above, for which I am seeking tax relief:

Travis Roszell _____ September 20, 2024 _____
Signature – Property Owner Date

Once complete, please return this form to Strathcona County's Legislative and Legal Services Department. The Legislative and Legal Services department will be in contact to set up a hearing date in front of Council.

An application for property tax relief must be presented to Council at a regular Council meeting. Council will consider the request and make a decision. In making its decision Council will consider the impact of the property tax relief on all property tax payers in the County. Presentations, deliberations, and decisions will typically be conducted in a public Council meeting.

Further information can be found in Strathcona County's *Property Tax Relief* policy, found on the County's website.

Council may consider tax relief applications that fall into one of the following categories:

Error in Fact

- only applicable to objective and material errors such as building characteristics or tax-exempt status, but does not include subjective property valuation assessment matters
- only available for the current or prior taxation year

Tax Exempt Properties While Under Construction

- request must be made by a tax-exempt organization
- construction must currently be in progress on facilities on the property that will be used for a tax-exempt purpose upon completion of the construction
- only applies to up to three consecutive taxation years

Compassionate Grounds

- a death or critical illness in the family has made it difficult or impossible to meet the tax obligations, and a late-payment penalty was incurred as a result
- only applies to the penalty portion of the tax assessment, and only to the current taxation year

Tax relief requests that do not fall into these three categories may require additional evidence to demonstrate that granting relief will not result in an undue burden on all other property tax payers in the County. These requests may be made to Council in the "Other" category.

Council will generally not grant tax relief in the following circumstances:

1. Taxes imposed for the designated industrial property requisition.
2. Taxes or penalties relating to more than one prior taxation year.
3. Amounts added to the tax roll that do not relate to the annual property assessment and taxation process, including but not limited to:
 - a. charges arising from the tax recovery process;
 - b. unpaid violation tickets;
 - c. utility consumption or installation charges; or
 - d. any penalties, interests or other charges related to those amounts.
