Maintenance of Community Halls

THAT Administration is to create a process to assume responsibility for maintenance of community halls through the 2017 budget process. The process will be in consultation with community hall executives and honour the community's role of providing services and events and preserve the community associations' autonomy.

Background

On May 17th, Council was presented with a report from Administration on the results of their community hall review, titled "Community Hall Sustainability Strategy Update". The review was undertaken at the request of Council.
